

Looking for Senior Volunteers

September 27, 2019

STEM Camp will be bringing STEM into classrooms this fall with help from Senior Volunteers!

STEM Camp is excited to announce our newest initiative: Free STEM workshops for children in grades K to 6 to introduce them to coding and programming. And the best part is that we are currently looking for help from volunteer seniors with this project.

If you are a senior(55+) (or know of one) who would like to help us by spending your time in this new program contact paul@stemcamp.ca or call Paul at 519 475 6600, ext 130. We will provide all of the training and support you will need as well as cover travel expenses.

A report from Burning Glass, a market analytics firm, reveals that seven million job openings in 2015 were in occupations that required coding skills. Also, coding and programming jobs are growing 12% faster than the market average*.

Following STEM Camp's mission, we want to make STEM fun for kids, preparing them for a bright future. Contact us to be part of this amazing project**!
