PROJECT OVERVIEW AND BACKGROUND

The Older Adult Centres' Association of Ontario (OACAO) has been gratefully partnering with the Ministry for Seniors and Accessibility (MSAA) on a contractual basis, for over nineteen years, to coordinate the development and operation of Seniors Active Living Fairs (hereafter referred to as “Fairs”) throughout Ontario. We are launching the 2025 - 2026 Seniors Active Living Fairs Funding Program and acknowledge funding from the Government of Ontario.

As we focus on reengaging seniors in their community, adaptability in programming approaches has become essential. Many centres have mastered the virtual program delivery model with strong participation from seniors in their communities; others have shifted towards safe in-person program delivery, or a hybrid model, incorporating necessary health measures as required. With this variety of program delivery in mind, and with funding support from MSAA, we are offering the Seniors Active Living Fairs Funding Program in three formats for 2025 – 2026:

- In-Person Single-Site Funding
- In-Person Multi-Site Funding
- Virtual Fairs Funding

There is limited funding available to fund a set number of projects in each funding formats.

In-person and Virtual Fairs, supported by MSAA and OACAO will provide a great public education forum to connect seniors to local Seniors Active Living Centres, which are vibrant community hubs. The fairs will showcase programs and service delivery models that the centres have planned to strengthen their communities. In-person Fairs include a Trade Show as an educational component, highlighting local community services to support seniors as well as the government programs available to them.

Ontario's seniors have made life-long contributions to Ontario. We know that most seniors want to live healthy, independent lives in their own homes and communities. Seniors also want to remain active and be safe and secure, no matter where they call home. In light of this, Fairs will provide opportunities to support the Government of Ontario's cross-governmental priorities noted below that will improve the lives of seniors and provide the supports and resources to help them:

1. Continue to live at home and in communities
 - Supporting seniors with services and care to enable them to continue to live at home and in their communities.
2. Remain healthy, active and socially engaged
 - Remaining active and socially engaged is one of the most important things seniors can do to maintain their independence and quality of life as they age.

3. Be safe and secure

- Promoting the rights of seniors and helping them protect themselves from abuse, including scams (for example, telemarketing, Internet scams) and financial exploitation (for example, misuse of a Power of Attorney, fraud).

4. Participate in the labour market and in the economy as they wish

- Seniors have extensive knowledge, experience and skills, and seniors who are active in the labour force, or as a leader or who volunteers in their communities, make important contributions to the economy and society.

The government also recently reiterated their commitment to seniors through the introduction of the [Support for Seniors and Caregivers Act, 2024](#), including a three-year, \$114-million suite of initiatives to enhance the quality of life and care for the province's seniors. Fairs can play a key role in helping seniors across Ontario learn more about financial security and local health and social services and provide opportunities to stay engaged in their community.

WHAT ARE SENIORS ACTIVE LIVING FAIRS?

A Seniors Active Living Fair is a public education initiative, developed in partnership between the OACAO and MSAA. Its objective is to increase awareness about available programs and services for seniors and share knowledge about healthy aging and active lifestyles. This reduces seniors' social isolation, improves their overall health and wellbeing and helps them maintain their independence. The funding provided by MSAA will help inform Ontario's diverse seniors, their families and care partners, about the benefits of healthy living and the importance of exercise, nutrition, safety and security.

ACCESSIBILITY FOR ONTARIANS WITH DISABILITIES ACT STANDARDS

The Accessibility for Ontarians with Disabilities Act, 2005 (AODA) is intended to reduce and remove barriers for people with disabilities so that Ontario can become more accessible and inclusive for everyone. Learn more about Ontario's accessibility standards: www.ontario.ca/page/about-accessibility-laws#section-2. To ensure that the event is as accessible as possible for all, consider asking attendees to let Fair Hosts know in advance of any specific accessibility accommodation requests. This will allow the Fair Hosts time to make the necessary arrangements in advance. This could include procuring live ASL (American Sign Language) interpreters during events as well as a live captioning service, if needed, for virtual events.

HEALTHY MEAL OR SNACKS

It's important to provide a healthy meal or snack for all participants and exhibitors at our Fairs. We have allocated a budget of up to \$12.50 per person, inclusive of tax and gratuities, to ensure that everyone has access to nutritious options that keep them energized and focused throughout the event.

PRESENTATIONS / SEMINARS

Fair Hosts are encouraged to consider the following presentation topics: technology training, digital literacy and cyber security awareness, health and wellness topics, falls prevention, seniors' safety, elder abuse awareness including frauds and scams, reducing ageism, social inclusion, mental health resources for seniors, Aging at home and community engagement, participation of older adults in the labour market or volunteerism. Requirement: 2-4 presentations/seminars.

DEMONSTRATIONS / HEALTH CLINICS

We encourage Fair Hosts to hold demonstrations highlighting active living opportunities for seniors. These may be programs from the Host Centre/Organization or other demonstration topics such as healthy eating, active living or fitness programs.

In-person Fair Hosts only, are encouraged to hold health clinics, such as blood pressure testing, flu/vaccine clinics, hearing clinics, income tax/benefits and estate planning clinics.

Requirement: 1-2 demonstrations/health clinics.

FOR IN-PERSON FAIRS ONLY: PARTICIPANT BAGS

Please ensure a balanced representation of both non-profit organizations, government agencies and for-profit agencies (if applicable). Non-profit exhibitors are free to exhibit, and a nominal fee can be charged for for-profit exhibitors. Contact your local Public Health Unit for local public health protocols that hosts might be required to follow. You can find your local Public Health Unit at <https://www.ontario.ca/page/public-health-unit-locations>. Each exhibitor must have access to one table and at least one chair.

PARTICIPANT AND EXHIBITOR SURVEYS

Gathering surveys is essential for obtaining valuable feedback from participants and exhibitors. At in-person events, you can distribute paper surveys to attendees and exhibitors for them to fill out and submit at specific collection points. For added convenience, online surveys can be sent via email, allowing for easy distribution and completion.

FOR VIRTUAL FAIRS ONLY: VIRTUAL VIDEO EVENT PLATFORMS

The virtual video event platform selected must be user-friendly for participants and allow for telephone participation for those who are not tech savvy or do not have access to the internet. “Large Meeting capacity” should be arranged in advance with the video platform host to accommodate the number of expected participants. Fair Hosts are encouraged to use a simple virtual platform and allow seniors and participants to log in through the internet, or call in using a telephone, thereby remaining accessible for all.
